Hiring Manager

**Inspire Brands**

Dear Hiring Manager:

I am writing to express my interest in the Software Development position at Inspire Brands. With my passion for software engineering and experience in software development, I believe I would be a great fit for this role.

As a first-year graduate student at Northeastern University's College of Engineering, I have focused on software engineering and have completed coursework Software Engineering. I also have hands-on experience working as a System Engineer at Tata Consultancy Services, where I worked on complicated issues in the software development business for approximately 1 year and 7 months.

During my time at Tata Consultancy Services, I worked with a team of 20 people and was responsible for designing, scalability, maintainability, and development using Agile Methodology. I have extensive experience in full-stack development using front-end Web technologies like JavaScript and jQuery as well as backend technologies involving NodeJS. In addition, I have completed coursework on Object-Oriented Design, which includes topics such as Factory Design and SOLID Design Patterns, and Web Design User Experience engineering, which includes hands-on assignments on NodeJS, ReactJS, and Angular along with HTML CSS to develop rich UI with MongoDB as a database.

Recently, I completed a project with all REST APIs and integration of API calls in ReactJS for my web design Project submission. Furthermore, I also have exposure to full-stack Java software development, Java frameworks and application servers, Web Services (SOAP/REST API), responsive JS (Angular/Node/React.js), and version control (preferably Git).

As a driven individual with exceptional communication and presentation skills, I am confident that I can make a positive impact at Inspire Brands. I am comfortable working in a hybrid (virtual and face-to-face) environment and have experience as an active leader on campus. My GPA is 3.8, and I am committed to seeking out what's next and delivering exceptional results.

I am excited to grow my knowledge in software development and delivery automation and believe that this position at Inspire Brands would be an excellent opportunity to do so. Thank you for considering my application. Please feel free to contact me at 857-693-1743 or [khismatrao.p@northeastern.edu](mailto:khismatrao.p@northeastern.edu) to discuss this opportunity further.

Sincerely,

Pranav Khismatrao
