Hiring Manager

UFCU

Dear Hiring Manager:

I am writing to express my strong interest in the Application Developer Intern position at **UFCU** that I discovered on your career site. As a First-year graduate student at Northeastern University's College of Engineering with a focus on Software Engineering, I am confident that I possess the technical skills, knowledge, and passion required for this role.

During my previous position as a System Engineer at Tata Consultancy Services, I worked on complicated issues in the software development business for approximately 1 year and 7 months. As a software developer, I have extensive hands-on experience in full-stack development using front-end Web technologies like JavaScript and jQuery, as well as backend technologies involving NodeJS. Moreover, I have enrolled in classes like Object-Oriented Design and Web Design User Experience engineering, where I have worked on projects using NodeJS, ReactJS, and Angular, along with HTML CSS, to develop rich UI with MongoDB as a database.

In addition to my technical skills, I possess the personality traits and soft skills required for success in this role. As an Application Developer Intern, I would demonstrate my initiative in troubleshooting problems, product improvement, and effective communication with both IT and business partners. Furthermore, I have experience working in a team and following Agile Methodology, and I am always willing to learn and adapt to new situations.

I am excited about the opportunity to work with the Information Technology (IT) team at UFCU and contribute my skills and knowledge to the development and maintenance of secure applications based on requirements. I am committed to delivering successful solutions, including helping define requirements, application development and deployment, implementing best practices, supporting testing efforts, and providing documentation while working with business units.

Thank you for considering my application. I look forward to discussing this opportunity further with you. Please feel free to contact me at 857-693-1743 or khismatrao.p@northeastern.edu.

Sincerely,

Pranav Khismatrao
