Hiring Manager

Cue Health

Dear Hiring Manager:

I am writing to express my interest in the Software Development Intern position at Cue Health. I was thrilled to come across this job posting on your career site and believe that my skills and experience align well with the requirements for this position.

As a graduate student pursuing a Master's degree in Software Engineering at Northeastern University's College of Engineering, I have gained hands-on experience in software development and worked on complex issues in the industry during my previous position as a System Engineer at Tata Consultancy Services. I have developed a strong foundation in object-oriented programming concepts, data structures, and algorithms through my coursework and professional experience. Additionally, I have extensive programming experience in front-end frameworks like React and TypeScript, as well as back-end technologies like NodeJS, which will be valuable assets for the assigned software development projects at Cue Health.

Moreover, I have worked with a team of 20 people responsible for Designing, Scalability, maintainability as well as Development using Agile Methodology, which would help me collaborate effectively with software teams and product owners throughout the research, design, and development of product capabilities and fixes as mentioned in the job description. In addition, I have experience using Git or equivalent revision control systems, which is a preferred requirement for this position.

I am confident that my experience in developing and testing full-stack web applications and related core services, along with my knowledge of software development best practices, make me a strong fit for this position. Furthermore, I am excited about the opportunity to be mentored by experienced developers within the team, and I am eager to contribute to Cue Health's mission of improving healthcare through innovative technology.

Thank you for considering my application. I would be thrilled to discuss this opportunity further with you. You can reach me at 857-693-1743 or email me at khismatrao.p@northeastern.edu.

Sincerely,

Pranav Khismatrao
