Hiring Manager

Sherpa 6

Dear Hiring Manager:

I am writing to express my strong interest in the Software Engineering Intern position at Sherpa 6. The opportunity to contribute to a dynamic and innovative healthcare technology company aligns perfectly with my passion for software development and my academic background.

As a first-year graduate student at Northeastern University's College of Engineering, specializing in Software Engineering, I am eager to apply my knowledge and skills to support Sherpa 6's mission of transforming the healthcare industry through technology. The description of the Software Engineering Intern role resonated with me, as it offers the chance to deliver digital solutions and enhance the efficiency of processes.

During my previous position as a System Engineer at Tata Consultancy Services, I gained valuable experience in the software development industry for approximately 1 year and 7 months. This role allowed me to work on complex software projects and collaborate with cross-functional teams to ensure scalability, maintainability, and quality. I have a strong foundation in full-stack development, utilizing front-end web technologies such as JavaScript and jQuery, as well as back-end technologies including NodeJS. My experience in Agile Methodology and working with a diverse team has further enhanced my ability to design, develop, and deploy software solutions effectively.

In addition to my professional experience, my graduate coursework has equipped me with the necessary skills to excel in software engineering. Courses such as Object-Oriented Design and Web Design User Experience Engineering have provided me with a solid understanding of software architecture, design patterns, and best practices. I have hands-on experience with technologies like ReactJS, Angular, HTML, CSS, and MongoDB, enabling me to develop intuitive user interfaces and scalable applications. Through my coursework and personal projects, I have gained a deeper understanding of the unique challenges and opportunities within the healthcare domain. I am excited to contribute my technical skills, problem-solving abilities, and collaborative mindset to Sherpa 6, as the company revolutionizes the way healthcare providers and patients interact and manage their care.

Thank you for considering my application. Please feel free to contact me at 857-693-1743 or khismatrao.p@northeastern.edu to schedule an interview.

Sincerely,

Pranav Khismatrao
