Hiring Manager

Milliman

Dear Hiring Manager:

I am excited to apply for the Software Development Internship at Milliman, as advertised on your website. As a current graduate student in Software Engineering at Northeastern University, I believe that my skills and experience align well with the requirements of this position.

During my previous experience as a System Engineer at Tata Consultancy Services, I gained hands-on experience in full-stack development using front-end Web technologies such as JavaScript and jQuery, as well as back-end technologies like NodeJS. I have also worked on projects involving Design, Scalability, maintainability, and Development using Agile Methodology with a team of 20 people. Additionally, as a graduate student, I have taken courses in Object-Oriented Design and Web Design User Experience Engineering, which have helped me develop a strong foundation in coding best practices and software development techniques.

I recently completed a project for my web design course where I developed a web application using ReactJS, NodeJS, and MongoDB. This project involved the development of REST APIs and integration of API calls in ReactJS for the front-end. In my final year project, which was also published, I applied machine learning algorithms to detect and predict phishing websites using a valid dataset to train and model an algorithm.

As an aspiring software developer, I possess a strong aptitude for math and computer science, with solid critical thinking skills and sound judgment. I am a team player with a positive and energetic attitude, and I believe in the power of collaboration to achieve results.

I am excited about the opportunity to assist the product development team in creating and testing new software applications for the healthcare industry. I am also willing to work onsite at the Milliman Brookfield, Wisconsin office.

Thank you for considering my application. I look forward to discussing this opportunity further with you. You can call me at 857-693-1743 or email me at khismatrao.p@northeastern.edu.

Sincerely,

Pranav Khismatrao
