Hiring Manager

Lululemon

Dear Hiring Manager:

I am excited to apply for the Software Development internship at **Lululemon**. The values and principles of your company align with my personal beliefs and I am eager to contribute to your team's culture of continuous improvement and collaboration.

As a graduate student with a focus on Software Engineering and experience as a System Engineer at Tata Consultancy Services, I have developed strong skills in full-stack development using front-end technologies such as JavaScript and jQuery, as well as backend technologies including NodeJS. During my time at TCS, I worked with a team of 20 people responsible for design, scalability, maintainability, and development using Agile methodology.

In addition to my experience, I am pursuing Master's degree in Software Engineering at Northeastern University and have taken courses in Object-Oriented Design, Web Design User Experience engineering and Enterprise Software design containing wide range of topics including servlets, Spring MVC and Spring Boot. I have hands-on experience with NodeJS, ReactJS, Angular, HTML, CSS, and MongoDB, and have developed a project with REST APIs and integration of API calls in ReactJS for my web design project submission. Furthermore, my final year project and publication involved applying machine learning algorithms to detect and predict phishing websites using a valid dataset to train and model an algorithm.

I am excited about the opportunity to collaborate with tech managers, leads, and other partners, participate in design discussions and code reviews, develop product features using software engineering best practices, contribute to process improvements, and document approach and results. I am an analytical and logical thinker, passionate about solving problems and understanding how things work. I have strong communication skills and can easily work with cross-functional teams.

I acknowledge the presence of choice in every moment and take personal responsibility for my life. I possess an entrepreneurial spirit and continuously innovate to achieve great results. I communicate with honesty and kindness and create the space for others to do the same. I lead with courage, knowing the possibility of greatness is bigger than the fear of failure. Lastly, I integrate fun and joy as a way of being and working, and I don't take myself too seriously.

Thank you for considering my application. I look forward to discussing this opportunity further with you. Please feel free to contact me at 857-693-1743 or khismatrao.p@northeastern.edu.

Sincerely,

Pranav Khismatrao
