Hiring Manager
Rockstar Games

Dear Hiring Manager:

I am writing to express my strong interest in the Software Development intern position at Rockstar Games. As an aspiring web developer with a passion for gaming, I believe that this opportunity would allow me to develop my skills and collaborate with some of the most talented individuals in the industry.

Currently, I am a first-year graduate student at Northeastern University's College of Engineering, majoring in Software Engineering. I have extensive experience in full-stack development using front-end web technologies such as JavaScript and jQuery, as well as backend technologies involving NodeJS. In addition, I have completed courses in Object-Oriented Design and Web Design User Experience Engineering, which have equipped me with advanced skills in developing rich UIs with technologies such as ReactJS and Angular, and databases such as MongoDB.

Furthermore, I worked as a System Engineer at Tata Consultancy Services for 1 year and 7 months, where I tackled complex issues in the software development industry. I worked with a team of 20 people, responsible for designing, scalability, maintainability, and development using Agile methodology. During my tenure, I gained hands-on experience in REST APIs and integration of API calls in ReactJS for my web design project submission. Additionally, I worked on a machine learning project where I applied algorithms to detect and predict phishing websites using valid datasets.

As a web developer, I value the ability to adapt and absorb new web technologies, which I believe is an essential trait that the Rockstar development team highly values. I have a strong problem-solving ability and excellent communication skills, both of which are essential skills that I believe I can leverage to achieve well-scoped goals while working collaboratively with UI/UX Design and Digital Production interns on the Digital Marketing team.

I am excited to learn from and work with the talented team at Rockstar Games and contribute to the development of some of the most creative and ambitious projects in the industry. Thank you for your time and consideration, and I look forward to discussing this opportunity further with you. Please feel free to contact me at khismatrao.p@northeastern.edu or 857-693-1743.

Sincerely,
Pranav Khismatrao
